Kapitel 18: Overkill

Overcome with our leaving
Over everything with breathing
On the never ending evening
On the edge of finally over

Even over is not ending
Overstaying is the new start
Never ever even over
Even kill you twice again
Never ever see you going
Kill you over even over
Every overkill to you

Rock me, rape me, hug and hate me
Eat me, drink me, kiss and kill me
Heal me, hurt me, love and leave me
Let me never feel it's over
